Profile Summary

Cloud Infrastructure Engineer with 4+ years of experience managing enterprise Linux and cloud platforms in Banking and Large-Scale enterprise environments. Skilled in Azure, AWS, Kubernetes, Docker, Terraform, Jenkins and Ansible, with knowledge in automation, Infrastructure as Code, platform reliability and production support.

Technical Skills

Cloud: Azure, AWS, OCI

DevOps & IaC: Terraform, Ansible, Jenkins, Git, ARM Templates

Containers: Docker, Kubernetes, AKS

Linux: RHEL, AIX, Solaris, Shell Scripting, LVM

Monitoring: Splunk, ELK, Grafana, Dynatrace, Prometheus

Security: IAM, NSG, Vulnerability Management, Security Hardening

Operations: Incident Management, Root Cause Analysis, Disaster Recovery, Production Support

Professional Experience

Software Engineer

April 2025 – Present

Tech Mahindra (Client: State Bank of India)

Navi Mumbai

- Manage and maintain 200+ production Linux servers across RHEL, AIX and Solaris environments supporting critical banking workloads.
- Automated operational workflows using Ansible Playbooks and Shell scripting, reducing manual administration effort by 40%.
- Implemented centralized monitoring and log management across 100+ systems using Splunk, improving incident detection and operational visibility.
- Executed enterprise RHEL lifecycle upgrades across 50+ servers using Leapp migration framework while ensuring minimal service disruption.
- Performed security hardening, vulnerability remediation and production support activities while maintaining 99.99% platform availability and SLA compliance.

Senior Linux Administrator

Dec 2023 – April 2025

Qess Corp (Client: Reliance Industries Limited)

Navi Mumbai

- Managed infrastructure operations across 1000+ Linux servers spanning production and non-production enterprise environments.
- Provisioned and administered Azure resources including Virtual Machines, Storage Accounts, Virtual Networks and Network Security Groups.
- Developed Infrastructure as Code solutions using Terraform and Azure ARM Templates to standardize cloud deployments.
- Supported Kubernetes-based application environments and implemented monitoring solutions using ELK Stack and Grafana for infrastructure observability.

Linux Administrator

Nov 2021 – Nov 2023

ACL Digital (Client: Reliance Industries Limited)

Navi Mumbai

- Administered Linux servers including patch management, storage administration, user management and system performance optimization.
- Supported application and database infrastructure across multiple production and non-production environments while maintaining 99.9% uptime.
- Developed Bash scripts for log management, disk utilization monitoring and routine operational automation tasks.

Technical Projects

Enterprise Kubernetes Platform Deployment | *Kubernetes, Docker, MySQL, WordPress*

- Designed and deployed a multi-tier application architecture on Kubernetes using namespaces, services, persistent volumes and RBAC controls.
- Implemented application deployment automation and service verification procedures.

Infrastructure as Code Automation Framework | *Terraform, Azure, ARM Templates*

- Automated provisioning of Azure infrastructure including Virtual Machines, Storage Accounts, Virtual Networks and Security Groups.
- Developed reusable Infrastructure as Code modules to reduce deployment effort and configuration drift.

CI/CD Pipeline Automation | *Jenkins, Docker, GitHub*

- Built automated CI/CD pipelines for containerized applications using Jenkins and Docker.
- Integrated automated deployment workflows to improve release consistency and delivery speed.

Linux Operations Automation Framework | *Ansible, Bash*

- Automated server health checks, user management, patch validation and operational reporting activities.

Certifications

- Microsoft Certified: Azure 104 (**Azure Administrator Associate**)
- **Cloud Solution Architect** Master's Program from Simplilearn
- **DevOps Engineer** Master's Program from Simplilearn
- Oracle Cloud Infrastructure Certified **Data Science Professional**
- Oracle Cloud Infrastructure Certified **Generative AI Professional**
- Oracle Cloud Infrastructure Certified **AI Foundations Associate**
- Oracle **SQL & PL/SQL** from Center for Development of Advance Computing (CDAC)
- **CISCO Data Analytics** Essential
- **Python 101** For Data Science from Cognitive Classes

Education

Ramrao Adik Institute of Technology (DY Patil University)

Master of Technology (M.Tech) in Computer Engineering | 8.24 CGPA

Mumbai, India

June 2024

Chhatrapati Shivaji Maharaj Institute of Technology

Bachelor of Engineering (B.E) in Computer Engineering | 6.74 CGPA

Mumbai, India

June 2021

Publications

- **Springer (Data Science)**: Research on hybrid LDP and AES encryption for recommendation systems.
- **Springer (AIS)**: Research on hybrid noise mechanisms to elevate privacy in AI systems.

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief.
